

COIN50 Daily Summary

The COIN50 index detailed a daily return of -1.17%, indicating a modest dip. However, certain sectors depicted differing performances with, for example, the Decentralized Finance category showing a slight increase of 0.13%. Over a longer period, the COIN50 index exhibited optimistic results, with gains of 20.58% and 4.49% for 30-day and 90-day periods respectively. These figures indicate a consistent, upward trend in the past months. Tokens individually showed varying returns, with AAVE emerging as the top performer of the day at 3.99%. On the end of the spectrum, BONK registered the largest decline with a return of -9.41%.

Key highlights:

1. **Top Performer:** AAVE stood out as the prime performer amongst the 50 tokens, posting a significant return of 3.99%.
2. **Largest Decline:** BONK, facing a considerable setback, recorded the largest decline with a return of -9.41%.
3. **Noteworthy Movements:** Other noteworthy tokens include MKR and UNI. Despite the modest dip in the overall index, these tokens showed gains with a return of 0.29% and 0.11% respectively.

Performance

Index and Sector Performance

It is not possible to invest directly in an index. Exposure to an asset class represented by an index is available through investable instruments based on that index. MarketVector does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. MarketVector makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. MarketVector is not an investment advisor, and it makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document.

Investments into crypto currencies and/or digital assets are subject to material and high risk including the risk of total loss. The calculated prices may not be achieved by investors as the calculated price is based on prices from different trading platforms. Furthermore, an investment into crypto currencies and/or digital assets may become illiquid depending on the trading platform or investment product used for the specific investment. Investors should carefully review all risk factors disclosed by the relevant trading platform or in the product documents of relevant investment products.

Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other vehicle. Inclusion of a security within an index is not a recommendation by MarketVector to buy, sell, or hold such security, nor is it considered to be investment advice.
